STATISTICAL SECTION

Included in the Statistical Section are financial presentations which provide detailed data on the physical, economic, social, and political characteristics of Montgomery County (primary government only, except where noted). They are intended to provide a broader and more complete understanding of the County and its financial affairs than is possible from the basic financial statements and supporting schedules included in Part II "Financial Section." Many of these tables cover more than two fiscal years and present data from outside the accounting records. Therefore, the Statistical Section is unaudited.

^{*} Tax rates for FY02 and FY03 are for real property only (personal property rates are presented in parenthesis). Real property rates are based on 40 percent of real property assessments. The rates for personal property remain the same (based on 100 percent of the property assessment). The levy amounts include both real and personal property.

⁽¹⁾ Effective July 1, 1997, the citizens of Takoma Park, which was located partly in Montgomery County and partly in Prince George's County, voted by referendum to have the City located entirely in Montgomery County. This consolidation explains the significant increase in the Takoma Park tax levies between years 1997 and 1998.

NOTES:

When any installment of a special assessment becomes delinquent, the entire assessment becomes due and, if not paid by the date of the next tax sale, the property is sold in the same manner as for taxes.

Many property owners pay assessments in full so that the comparison of current assessments due to current collections has been of relatively small importance in this County.

1994 Montgomery County Code, Chapter 49, Section 49-58, provides for the payment of assessments in not more than twenty installments upon adoption of the ordinance making the assessment.
